

Revised: June 2017

Pieris Pty Limited Environmental Policy

Pieris Pty Limited (“Pieris”) is committed to developing a safe and healthy environment and minimising damage to the environment through operational controls whilst optimizing the usage of energy, raw materials and natural resources. Pieris is also committed to the implementation of an Environmental Management System, which complies with AS/NZ ISO 14001-2004, to assist with the achievement of the objectives within the Policy. The Pieris Environmental Policy promotes the following objectives:

- The recognition of environmental management as an organisational objective and priority;
- The minimisation of pollution and proper management and reduction of waste products;
- Appropriately manage and optimise the consumption of natural resources and energy;
- Use of environmentally friendly products where possible;
- Implement and maintain communications with staff, suppliers and sub-contractors on environmental issues and achievements, and incorporating environmental management in staff training and development programs;
- Establish and monitor sound environmental planning at the organization level for on-going protection of the environment, with clear responsibility and accountability given to specific supervisory and management positions within the company;
- Benchmarking environmental performance against established industry standards and best practice; and
- Assessment of environmental risks and implementing risk management programs to continually improve environmental performance.

Brian Pieris

Principal, Pieris Pty Limited
